

Complete Calcium for kids

THE PROGRESSIVE ADVANTAGE

Our bodies aren't designed to accept nutrients in one large dose once a day. By eating smaller, more frequent meals your body will absorb more nutrients from your food. The same principle applies to vitamins and minerals, which often have a short life span in your system and need to be replenished throughout the day. This reduces the benefit of a "one-a-day" formula. Progressive Complete Calcium for Kids is designed to provide a constant supply of nutrients for your child's body.

Progressive's Complete Calcium for Kids contains a combination of natural berry flavours and is sweetened with a blend of honey and organic maple syrup.

Complete Calcium for Kids also includes special ingredients that support your child's health and development:

BENEFITS

- Supports development of strong bones
- Promotes healthy teeth & gums
- Supports focus and concentration
- Detoxifies impurities from the body
- Provides antioxidant support

Vitamin C – This assists in the production of collagen, one of the key components of bone.

Green Food Concentrates – Green foods help improve your child's pH balance to reduce calcium loss.

Fruit & Vegetable Concentrates – This unique blend of whole-food concentrates provides potent antioxidant protection and supports healthy immune function.

Essential Fatty Acid Complex – This unique blend of whole-food concentrates provides potent antioxidant protection and supports healthy immune function.

Digestive Support – This blend supports the passage of nutrients across the intestinal wall and into the bloodstream, which improves absorption of the entire formula.
